2. Remittance can be made by Money Order, Cheque, Bank Draft or Postal Notes. In the case of Postal Notes, **MAKE THEM PAYABLE TO MARK FOY'S, LIMITED, AND KEEP A RECORD OF NUMBERS AND VALUES.** Do not affix postage stamps, which renders them valueless. How to measure correctly for RIDING BREECHES

Measurements taken in accordance with this detailed plan and forwarded with your order will assure you of absolute fitting satisfaction that is very difficult to produce in the absence of positive measurements. Use the form below for your first order, and preserve this page for future reference.

IMPORTANT.—Notice particularly those measurements that are marked "around." An "across" measurement in these positions would be useless in guiding us to a correct fit and full satisfaction for you.

MARK FOY'S OWN "TARGET" BRAND WINTER HOSE.

Illustrating the manner in which Full Fashioned Hose is knit to shape. No amount of wear or washing can "bag" it.

PERFECT FITTING, FULL FASHIONED, ALL-WOOL HOSE, OFFERING WONDERFUL VALUE AT DIRECT-FROM-MILL PRICES.

At our Goulburn Street Factory we have the only Full Fashioning Machines in Australia, on which we make our well-known "Target Brand Hosiery."

To keep the high standard set up by us in previous years, we have been extremely careful to import only the highest-grade yarn; in fact, we are using the same yarns as supplied to the British Hosiery Manufacturers, from whom we formerly purchased our supplies.

Therefore, Foy's customers can feel confident that they are purchasing the same high grade of hose as of yore, but now made in Australia by Australians.

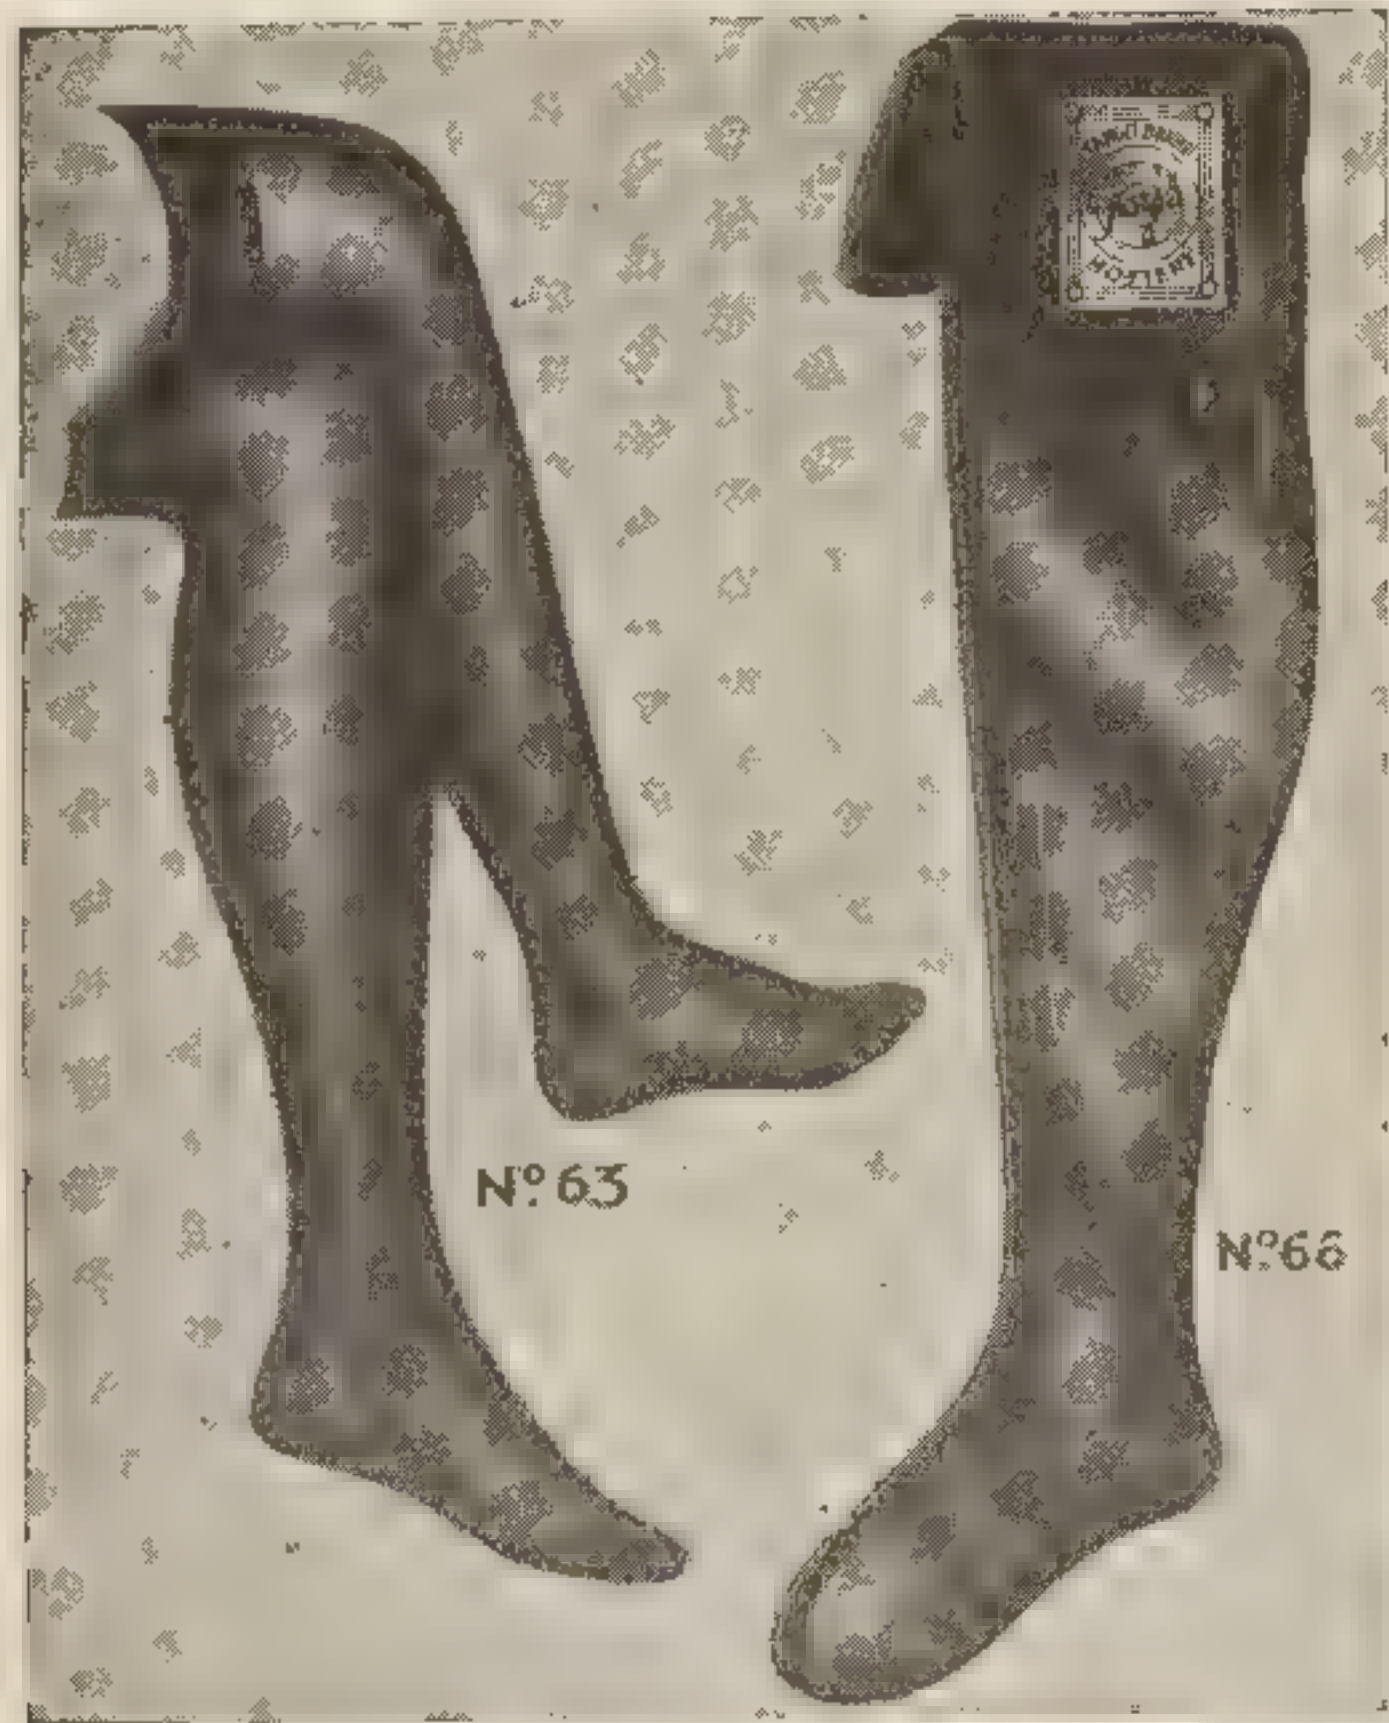

A brief outline of what "FULL FASHIONED" means is necessary, owing to the number of customers who have expressed dissatisfaction with the fit and comfort of the locally-made stocking.

A "full-fashioned" hose is made on a machine which knits the yarn to the exact shape of the leg. This machine automatically increases or reduces the number of needles at the top, calf and ankle, thereby ensuring PERFECT FITTING.

The circular (or unfashioned hose) is made, as its name implies, on a "cylinder machine," in tubular form, and is simply stretched and pulled on heated moulds to the shape of the legs and feet. Hence, the baggy appearance of this class of hose after washing.

To compare full-fashioned hose with the old style circular hose is like comparing a tailored costume with a ready-made shop garment.

One is CUT to fit, the other MADE to fit.

New Ribbons for Autumn-Winter.

Fancy and Novelty Styles for Lingerie, Dress and Hair Bow Uses, priced exceedingly low for the quality offered.

FANCY RIBBONS.

Manufacturers have brought out many charming novelties and have utilised the blending of colours to great advantage; mixed colours are a big feature, and these come in narrow and medium widths. Moire, corded, and many fancy weaves are used to make a ribbon. The effect is distinctly new. Milliners have taken these ribbons up extensively; they are made into cabouchons, bows, loops, streamers, etc. Our range is too large to quote individually. Patterns will be sent on application—one only of each line, so please state colour required. Narrow widths, $\frac{1}{2}$ in., from $4\frac{1}{2}$ d. yd.; 3-in., from $1\frac{1}{6}$ yd.; $4\frac{1}{2}$ in., and wider, from $1\frac{1}{11}$ yd.

Winter Underwear for Men and Boys.

NOTE.—"Target" Brand is a registered trade name for Foy's own underwear. Every piece of "Target" Underwear is made in our own mills. We spin the material from superior-grade yarn. We shrink it by a special process while still in the piece—thus is produced the flawless, perfect fitting, and unshrinkable "Target" Brand Underwear that must wash and wear beyond the capacity of ordinary underwear that lacks this careful system of manufacture.

Radio is positively the simplest and safest phase of Electrical Development that we have yet seen. Certainly a knowledge of your Set and the principles upon which it operates is necessary, but that only means an hour or two's study of the handbook and instructions. Definitely, let us say that you need not be an electrical expert, or anything approaching it, to use Radio in your home. If you can handle a Gramophone you can handle a Radio Set, and so listen in to the daily broadcasting of market reports and prices, latest cable and sports news, bed-time stories for the kiddies, and the music of high-class artists and professional orchestras. We are now carrying full stocks of Complete Sets, and all parts and materials from which to make your own Set. FOY'S PRICES ARE POSITIVELY THE LOWEST IN SYDNEY.

NOTE THE SIMPLICITY OF CONSTRUCTING THE AERIAL.

Radio results depend on the efficiency of aerial and ground connection. These, however, are simple matters when ordinary care is taken. Either single or double aerial may be used according to circumstances (the illustrations indicate how simply they are constructed). Our Radio Price List and Catalogue explains the whole construction in detail. Write for a copy post free, and keep it by you for reference.

The Dependability of Foy's Porch and Verandah Blinds is due to the Hard-wearing Material and Sound Workmanship that go into them.

We are too proud of our reputation as Universal Suppliers to sell a blind, which has so much hard work ahead of it, unless we are sure that from its very quality it promises the utmost in satisfactory shade service. We choose the material for wear. Expert workmanship fashions the blind for strength

with strong linen thread stitching. In all cases the sides are hemmed to ensure true running and resistance to wear. The result is utmost value and satisfaction for every shilling you pay for your blind.

Blinds, as listed below, are complete with a Top Pocket for Lathe, Bottom Pocket for Octagon Roller, 2 Single Pulleys, 1 Double Pulley, Cleat, Staples, Straps, and length of Best Hemp Cord. If required we can make a doorway in Blind Material or Leather, to prevent wear, for little extra cost.
